

# edge™

YOUR EDGE IN STRIKING DOWN WASTEWATER COST

Griswold Water Systems Edge installed upstream of your DAF or Clarifier will provide...

- Coagulant / Polymer Savings
- Thicker Sludge
- Improved Effluent Quality
- Improved System Stability

## FEATURES

- Easy Installation
- Rapid Return on Investment
- Software Based Signal
- Fully Adjustable Output Signal
- Very Low Power Consumption
- No Maintenance
- Water Resistant Nema 4X
- 5 Year Warranty
- Sizes 3" through 24"
- MET Certified - UL508A - CSA C22.2 NO.14
- Proudly Made in USA
- Affordable Rental Demo
- Submersible units available

## HOW IT WORKS

The patent pending GWS Edge applies powerful pulses of energy to wastewater as it flows through the Reaction Chamber. Coagulation and flocculation starts electronically prior to chemical injection which allows for chemical reduction and improved overall results.
